Position the TV antenna inside the roof of your attic following the instructions in the manual. Before attaching the aerial, consider where you want to position it.

*How to install a TV antenna?
| One For All*

Place your antenna as high as possible. TV signals travel hundreds of kilometers in the air. The higher your antenna, the stronger the signal you will receive. Placing an antenna on the roof of your home or business is the best option.

3. Point the Antenna in the Right Direction. Television signals travel in a straight

keep the antenna as far away as possible from these, and not orientated so the antenna is directed towards one. Remember wiring and objects from the floor below: When installing an attic antenna, it is very easy to forget the wiring for the rooms below. This wiring will typically not be so obvious and can easily be forgotten, but it can give rise to interference and may affect the antenna in other ways.
